

**Pacifica Graduate Institute
Depth Transformative Practices
Somatic Studies Specialization**

DPS 997b Documentation of Hours

Once the 25 hours required for DPS 997a are complete, students accrue the remaining 25 hours of the required 50 hours total in an approved somatic or depth modality offered in a group or individual context. Students may elect to continue with individual counselling or psychotherapy if they wish. A list of pre-approved modalities is available through the DTP Coordinator, and additional modalities may be submitted for consideration.

This course may be completed in the first, second or third year of coursework, but is required for the MA degree.
