M.A. IN COUNSELING PSYCHOLOGY

WITH EMPHASIS IN MARRIAGE AND FAMILY THERAPY, PROFESSIONAL CLINICAL COUNSELING, AND DEPTH PSYCHOLOGY

The M.A. Counseling Psychology Program with Emphasis in Marriage and Family Therapy, Professional Clinical Counseling, and Depth Psychology is dedicated to offering students unique and evidence-based comprehensive training in the art of marriage, family, and individual psychotherapy and professional clinical counseling with an appreciation for the systemic and immeasurable dimensions of the psyche.

Depth psychology invites a curiosity about the psyche and respect for the diversity and resiliency of the human experience. Transdisciplinary courses in literature, mythology, religion, and culture deepen students' abilities to link collective systems and archetypal themes to sociopolitical issues in the lives of individuals, families, and communities.

As preparation for professional licensure in Marriage and Family Therapy (LMFT) and Professional Clinical Counseling (LPCC), a rigorous two-and-a-half year academic program emphasizes theoretical understanding and experiential training in clinical skills, inclusive of a supervised practicum traineeship experience. Research studies and thesis writing prepare students to explore and contribute to the tradition of scholarship within the depth psychological tradition to further Pacifica's dedication to thoughtful and soulful practice.
